

Toader POPESCU, PhD, Assistant Professor, “Ion Mincu”
University of Architecture and Urbanism, Bucharest

Toader Popescu is an architect based in Bucharest, assistant professor at the “Ion Mincu” University of Architecture and Urbanism. He holds a masters degree in urban planning and a PhD in architectural and urban history, focusing on the influence railways had in the development and modernization of Romanian cities.

Toader is a former NEC fellow (2009-2010), member of the scientific committee of the Commission for Urban History in Romania (affiliated to the Romanian Academy), of the European Association for Urban History, the International Railway History Association and the Association pour l’Histoire des Chemins de Fer (France). He is also a practicing architect within his own office, member of the Romanian Order of Architects, the Romanian Registry of Urban Planners and other professional associations. He is currently serving as vice-president of the Planning Advisory Board within the municipality of Bucharest and has been a member of the National Commission for Historical Monuments in the Ministry of Culture (2018-2022).

He is associate editor to the journal of *sITA – studies in History and Theory of Architecture* and member of the editorial board of *Historia Urbana*, scientific consultant for the Romanian translation of some fundamental books and author of several publications. His book *The Romanian Railway Project (1842-1916)* won the Science Book of the Year award of the Association of Romanian Publishers in 2015.
